ENRICHMENT

Studying basic **Neurology** and the **Physiology** of handwriting enhances understanding of the brain-hand connection. An overview of **Psychology** expands insight into human behavior and personality.

Adler, Alfred	“Understanding Human Nature”
Erikson, Eric	“Identity and the Life Cycle”
Fromm, Eric	“The Art of Loving”
Goleman, Daniel	“Emotional Intelligence”
Horney, Karen	“Neurosis and Human Growth: The Struggle Towards Self-Realization”
Jung, Carl	“Man and His Symbols”
Maslow, Abraham	“Toward a Psychology of Being”

*AAHA recommends some books that are out of print because they are either academically exemplary or they teach a specific kind of a handwriting analysis. If you are unable to buy a used copy, AAHA members can borrow the out of print books from AAHA’s library. For more information visit: www.aahahandwriting.org
